**One operation, infinite formats.**

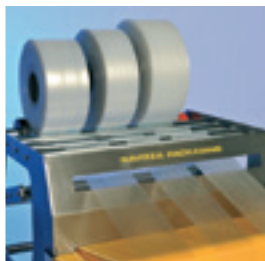

With the same reel it is possible to prepare instantaneously bags or formats in any length, individual or pre-cut in reel form, by simply adjusting the setting on the control panel.

**Furthermore Simplicita Baggy is:**

- **Automatic:** it manages autonomously each operation
- **Universal:** it works with many types of flexible materials
- **Compact:** it can be easily used in the office or the factory
- **Versatile:** with its optional accessories it prints data and logos directly on to the film, rewinds pre-cut bags, punches euroslot, etc.
- **Intelligent:** memorizes many sizes, to be recalled with one simple operation
- **Multitasking:** multilane operation
- **Economic:** only electrical power, low consumption and as much as 50% saving on materials.

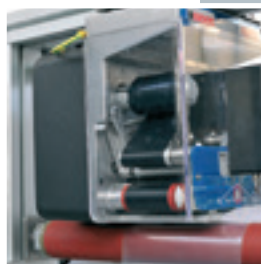

**ACCESSORIES**

Integrated rewinder and frame

Printing options
